

Enfield Energy Committee Meeting Minutes

Nov 30, 2021

Present: Jo-Ellen Courtney (chair), Kim Quirk, Marta Ceroni, Gary Hutchins, Wendell Smith

Excused: Charlie Clark

Meeting came to order: 6:00 pm

Weatherization Updates

Habitat for Humanity – no news on this project. We offered to help publicize but don't have any details yet.

PUC ruling – there is a lot of pushback from the recent PUC ruling to roll back the energy efficiency funds. This leaves no money in the NHSaves fund for weatherization programs.

Community Power

PREP: Our first Public Hearing is next week, Dec 7, 7pm at the Community Center. Kim will be there at 6:30 and help set up the room. We aren't expecting tons of people...maybe we'll be surprised.

PRESENTATION: Kim went through the slides she prepared for the presentation on Dec 7. She will incorporate the feedback that the group provided.

Jo-Ellen will reach out to JIM TAYLOR TO REQUEST A PROJECTOR. She will also check with Jim Bonner to confirm his taping of the Hearing and inquire if this hearing can be live streamed on the Enfield Channel on facebook. Kim will be there at 6:30 to help set up the room. The presentation link can be added to the town newsletter, the town facebook page, and we can make it available on the listserv.

Marta will reach out to Alisa and Lindsey Smith on whether we can provide a zoom or facebook live streaming with our own equipment. Marta would need to run this and be the question intervenor.

The second Public Hearing is scheduled for Feb 15, 2022.

Respectfully submitted,

Kim Quirk
