Approval of the May21, 2019 meeting minutes: Approved by voice vote.

New Hampshire Lakes Association: Andrea La Moreaux. of the New Hampshire Lakes Association gave a presentation on the New Hampshire Lake Association and on the Smart Lakes Program. A copy of the PDF of the presentation can be obtained by emailing Andrea at: alamoreaux@nhlakes.org.

After the presentation she led a brief tour of the lakefront for the park to talk about some of the components that are “lake smart” and others that offer areas of “opportunity”. Some are as follows:

- RR ties are not the best type of wall and stone would be a better alternative
- Perched beach (behind the wall) is a good approach
- It would be good to have more vegetation between the parking lot and the lakefront. It is a large area of impervious surface. Alternatives were discussed for the parking lot. E.g., Hypertherm parking lot
- On the other side of the park (dog swimming side) rain gardens would be helpful to control runoff. A footbridge over the low spot and a meandering path would be good approaches to allow the water to seep into the ground and not run directly into the lake.
- Ideas for the Pavilion were also discussed.
- The Lakes Association would be glad to review our plans for landscaping.

Next Meeting: June 25 at 3:30 PM Whitney Hall.

Meeting adjourned. 4:44 PM
