Mike Akillian of the Center for Strategic Governance met with the board as he is the Town's "pre-planning" contractor. He presented a revised version of a document that he presented a few weeks earlier. He had incorporated in some of the Planning Boards suggestions and changes. The new document featured a condensed list of themes for the Master Planning process. The board and Mr Akillian went through the document methodically to further revise the concepts. A new version will be produced on Friday, 10/18/2019 and forwarded to Administrator Taylor for dissemination to the board, including those that were not able to attend the meeting. A topic of discussion during this process was regarding the assembly of a focus group to be a sounding board for the work being put forth. It was decided that this group be made up of between 8 and 10 citizens. It was also decided that this group be made up of a wide variety of members including: old and young, working and retired, business owners and workers, etc.
