

**Enfield Conservation Commission
October 4, 2018 Agenda**

7:00PM: Call meeting to order

Approval of September minutes and August minutes

Action for Wildlife: John Welenc's update on maps in Town office

Wildlife observation station: Setting up site to view wildlife on island from end of parking lot at Town offices. Project will consist of removal of 20-25 Buckthorn saplings and a clump of Multi-flora Rose, and possible honeysuckle bush. All are invasive. Work to be done in concordance with Shoreline Protection Act. All work is done by hand, roots and stumps left in place. A motion from the Commission is necessary to start this process, and then should go before the selectboard. All work will be done with consultation of Town Manager.

Town Wildflower: No rules or regulations that Town Manager Ryan Aylesworth knows about. Compose a list of 5 to choose from.

Intent to Cut: None

Report on Harris Brook census: ?

7/12/18: Town Lot: Lot #9-A & Lot#9-B in Canaan. Jim Taylor, Scott Osgood, Grafton County forester Jim Frohn, Alan Strickland, Jerold Theis and Shirley Green met to look at lot to discuss management. Consensus was that the Town is going to keep this lot for the long term, so why not set some goals and manage it. Jim Taylor is going to look into the language of what can be done inside the 400ft protected zone of the wellhead. Jim Frohn wrote a report of the visit, see included report.

No new information from Jim Taylor as of 10/4/18.
